

Dry Harbor - Information for Visitors (Updated October 26, 2021)

In person visits take place either outdoors on the patio or in the lower concourse activities room. To schedule, please visit

www.dryharbor.com/visitation.

To help ensure everyone's health and safety, please adhere to the following infection prevention practices when visiting:

1. Upon arrival, complete a health screening at one of the kiosks in the reception area. Any visitor exhibiting fever and/or COVID-19 symptoms or those who had close contact with someone with COVID-19 infection in the prior 14 days (regardless of the visitor's vaccination status) will not be allowed to visit.
2. After conducting your health screening, please go directly to the designated visiting area. When the visit has ended, please directly exit the facility.
3. Please wear a facemask throughout your visit. Facemasks are available at the reception desk.
4. Please use an alcohol-based hand sanitizer before and after your visit. Sanitizers are available throughout the building.
5. Residents who are fully vaccinated may choose to have close contact (including touch) with their visitor(s), while wearing a well-fitting face mask and performing hand hygiene before and after. For residents who are not fully vaccinated, no physical contact, e.g., kissing, hugging and touching, will be allowed, and social distancing of at least 6 feet should be always maintained.
6. Please physically distance from other residents and staff in the facility.
7. Eating is not allowed during the visit.
8. Visiting will take place daily, between 10:00 AM and 4:00 PM. The schedule will be maintained by the Recreation department.
9. Visitors under the age of 16 must be accompanied by an adult 18 years of age or older.
10. Dry Harbor uses Queens County COVID-19 positivity rates to determine when visitation should be paused. Any change in visitation practices will be communicated to families via group text or other similar means.
11. Any visitor who experiences signs or symptoms of COVID-19 or tests positive for COVID-19 after visiting is asked to contact the facility infection preventionist at 718-565-4200, extension 4701.

We look forward to seeing you at Dry Harbor!
